Bob Snyder

Four decades ago, the founder of Suladio, Bob Snyder, started a family with his high school sweetheart, Holly. In an effort to provide a better life for his loved ones, he immersed himself in personal development, sales and business training, attended seminars, workshops, roundtable discussions and turned his automobile into a university on wheels.

His efforts propelled him to the top of the sales charts and he founded businesses designed to empower others with the knowledge, tools, systems and support needed to crush it in any economy. To date, he has created dozens of companies that have produced hundreds of millions in revenue.

DRIVE by Suladio

Along the way Bob was introduced to Woody Woodward, a best-selling author, coach, speaker, trainer and creative genius. Woody shared his life's work with Bob, a customer engagement and influencing system we know today as DRIVE.

Bob challenged Woody to prove its validity with a small test group and in 90 days the group increased sales 147%. Once the results were proven with a small test group, Bob shared DRIVE with his team of over 3,000 salespeople and their minds were blown.

Over the last decade, Bob has provided encouragement and a platform for Woody's DRIVE system to evolve into the life-changing program it is today.

The Future of Suladio

To better market the DRIVE system, Bob recognized that learning digital systems, social media and a variety of content formats would have the biggest impact. He also realized every other small business owner and entrepreneur today needs this information.

Financial Mastery and Digital Business Mastery were born! The goal and purpose of Suladio remain the same with this added education. We want to provide the education and resources you need to improve yourself and your business, and we want to see you succeed!

You've heard of the five love languages?

Did you also know that there are **five communication languages**, and when we use a language that differs from the preferred communication type of the person or audience we are talking to, the disconnect results in lost sales, blown opportunities, damaged relationships, increased failure and less income.

This confirms the old saying that "what you don't know may be costing you a fortune."

In addition to the fundamental principles and types of DRIVE, our education gives you access to insights, action steps and guidance in 3 main areas of life:

- In **Business, Career and Sales**, you will learn the buying language that your prospective customer prefers so that you can achieve maximum sales conversion.
- In **Relationships** you will learn how to connect quickly and deeply with people to enhance likability, trust and influence.
- In **Personal Development** the DRIVE System will supercharge your results so that you can accelerate your path to becoming your very best self, attracting opportunities, relationships and experiences that can help you make the most of your life.

The DRIVE System teaches you about each communication type, (Director, Relator, Intellectual, Validator and Executive) and how to connect with them. Each one has unique internal and external motivating factors and you can master every aspect of each DRIVE type in our DRIVE Mastery Course.
